

ROOF TRUSSES

## ROOF TRUSSES

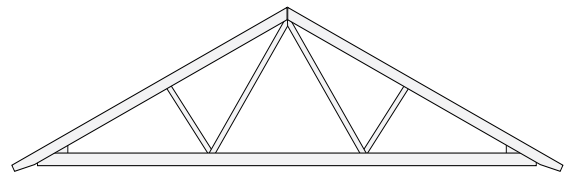

Our extensive experience in the wood and construction industry and our modern production environment means that we can assist our customers in finding solutions that re adapted to their particular needs. Our roof trusses are CE-approved according to Eurocode 5. Roof truss plans and calculations are formulated by our own accredited roof truss designers in the most advanced CAD systems on the market. Manufacturing takes place in two production lines under the control of SP. We manufacture roof trusses with a width of up to 21 metres.
